Professional Summary

Computer Science and Engineering undergraduate specializing in Python, AWS, Azure, AI/ML, and NLP. Delivered 5+ scalable applications and data-driven solutions through academic projects, professional internships, and competitive hackathons.

Work Experience

Cloud Operations Associate, KloudKraft Feb 2026 – Present

- Gained hands-on experience in **AWS & Azure**, working across **cloud infrastructure, configuration, deployment, and troubleshooting**.
- Troubleshoot validation issues by analyzing **backend/central server logs** and **pass/fail test cases**, building strong skills in **Debugging, Log Analysis, Testing, and Auto-Evaluation**.
- Implement changes to the **KodeBuck application** based on technical requirements, creating and validating technology-based problem statements and test cases.
- Transitioned from intern to a **full-time role with SME responsibilities**, supporting platform quality and reliability.
- Orchestrated containerized application deployments using **Kubernetes** clusters to maintain platform availability and service consistency.
- Configured virtual private clouds and security groups to manage traffic flow and secure backend infrastructure.
- Developed **Shell Scripting** routines to automate log rotation and server health monitoring tasks.

Python Developer Intern, Arohi Software Sept 2024 – Dec 2024

- Built and deployed a **Milk Dairy Management System** using Django and Flask, streamlining operations for **100+ users**.
- Improved application efficiency by optimizing backend performance and designing a responsive user interface, reducing data retrieval time by **20%**.

Overall Coordinator, IT Skill Enhancement Program (HCLTech) Sept 2023 – Mar 2024

- Led and coordinated technical training for trainees in HTML, CSS, JavaScript, Angular, and Bootstrap, ensuring timely project completion and skill development.
- Mentored peers while contributing to frontend development tasks, strengthening team productivity, collaboration, and leadership efficiency.

Skills & Interests

Languages: Python, SQL, HTML, CSS
Backend & Databases: Django, MySQL, Pinecone
Cloud & DevOps: AWS, Azure, Jenkins, Git, GitHub, Linux/Unix, Vercel, Render
AI/ML: TensorFlow, Keras, Scikit-learn, OpenCV, NLTK, spaCy, Machine Learning, Deep Learning, NLP
Data Analytics: Pandas, NumPy, Data Visualization, Power BI, Excel
Tools & Automation: Postman, Streamlit, Jupyter, Colab, n8n
Additional Skills: Kubernetes, Networking, Shell Scripting

Projects

MediBot AI - Medical Chatbot Using LLM **github/Medical-Chatbot**

- Built an intelligent chatbot using **Python, LangChain, OpenAI API, and RAG** to handle medical queries with context-aware responses.
- Integrated medical document retrieval with LLMs, improving accuracy and reliability of answers.

Student Study Portal **Live-Link**

- Developed a web-based platform using **Django, JavaScript, HTML, CSS** to manage notes, to-dos, and assignments.
- Integrated external APIs (YouTube, Wikipedia, Dictionary) to enhance learning and productivity.

Trenz - Fashion E-commerce Web App **Live-Link**

- Built a Gen-Z-focused e-commerce platform using **Angular, TypeScript, HTML, CSS**.
- Designed a component-based UI for fast reloads and seamless user experience, inspired by Bollywood fashion.

WhatsApp Chat Analyzer **github/Whatsapp-Analyzer**

- Created an analysis tool with **Python, Pandas, Matplotlib, Streamlit** to extract insights from WhatsApp chats.
- Visualized user activity, frequent words, and message patterns with interactive dashboards.

Education

Shri Sant Gajanan Maharaj College of Engineering, Shegaon, B.E. in Computer Science and Engineering — Nov 2022 – May 2026

- CGPA: **8.8**

Janta Mahavidyalaya, Chandrapur, Higher Secondary Certificate (HSC) — Mar 2022

- Percentage: **77.00**

Scholar Search Academy, Korpana, Secondary School Certificate (SSC) — Mar 2020

- Percentage: **86.20**

Certifications

Programming Using Java - NPTEL — 2023
Certificate of completion from NPTEL. ***View Credential***

Python for Data Science, AI & Development - Coursera (IBM) — 2023
Credential ID: IBM-DS0101EN. ***View Credential***

SQL for Data Science - Coursera (UC Davis) — 2023
Credential ID: UC-DS-SQL. ***View Credential***

Machine Learning - AWS Academy — 2023
Completed AWS Academy's foundational ML program. ***View Credential***

Postman API Fundamentals Student Expert - Postman — 2023
Badge earned through the Postman Student Expert program. ***View Credential***
